### 2 LEARNING CREDITS

Remember you also have the potential to double the number of learning credits by demonstrating at appraisal how your learning has changed your practice. The forms that we provide at the end of the course will help you to reflect on your learning

**Introduction** Using case studies this session will provide answers to common questions arising in primary care in the management of airways disease. Specific areas to be covered will include: Getting the right diagnosis – often without fancy tests, inhaler pot-pouri – when to give what, and learn what can secondary care provide for your patients

### Objectives

- 1 Recognise how to get the right diagnosis in primary care
- 2 Choose the most appropriate inhalers in a variety of situations
- 3 Understand what secondary care can offer your patients

**Speaker/s** Andrew Stanton, Consultant Physician (Respiratory), GWH
