Relevant Curriculum Statement: '

3 LEARNING CREDITS

Remember you also have the potential to double the number of learning credits by demonstrating at appraisal how your learning has changed you practice. The forms that we provide at the end of the course will help you to reflect on your learning

Introduction Eating disorders encompass a range of conditions that can often begin during adolescence. These can persist into adult life or develop later in some patients. Recognition of those patients with eating disorders can be challenging. Come along to this study afternoon to learn how to recognise clinical features of eating disorders as well as considering safeguarding issues, referral and the role of different services.

Objectives

1. Learn how to identify those patients who may have eating disorders including recognition of clinical features
2. Understand the management of patients with eating disorders
3. Be aware of how to access local services and when to refer

Speaker/s

Dr Christine Vize - Consultant Psychiatrist
Dr Justin Daddow - Consultant in Child & Adolescent Psychiatry

Programme	Speakers
1300 - 1330 REGISTRATION & Sandwiches
