Relevant Curriculum Statement:

2 LEARNING CREDITS

Remember you also have the potential to double the number of learning credits by demonstrating at appraisal how your learning has changed your practice. The forms that we provide at the end of the course will help you to reflect on your learning

Introduction Colorectal bleeding is a common presenting complaint in primary care and differentiating between benign and more serious conditions is an important skill. Come along to this study evening to learn more about the causes of colorectal bleeding, diagnosis and management including newer treatments for common problems.

Objectives

- 1 Differentiate between different causes of colorectal bleeding
- 2 Discuss new treatments for haemorrhoids
- 3 Understand what secondary care can offer your patients

Speaker/s Mr Phillip Burgess Consultant General & Colorectal Surgeon GWH
